Hexie Snowflake

Finished Block 5" Square

I made this with tiny hexagons. It can be applied to a square like an applique, or finished by adding a second one to the back for an ornament.

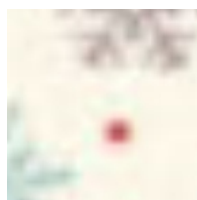

A

This is a great block for using up scraps and remnants.

B

If you are placing it on a background, you will need a piece of fabric 5.5" x 5.5".

C

1/8 yard of each of the remaining fabrics should be more than enough.

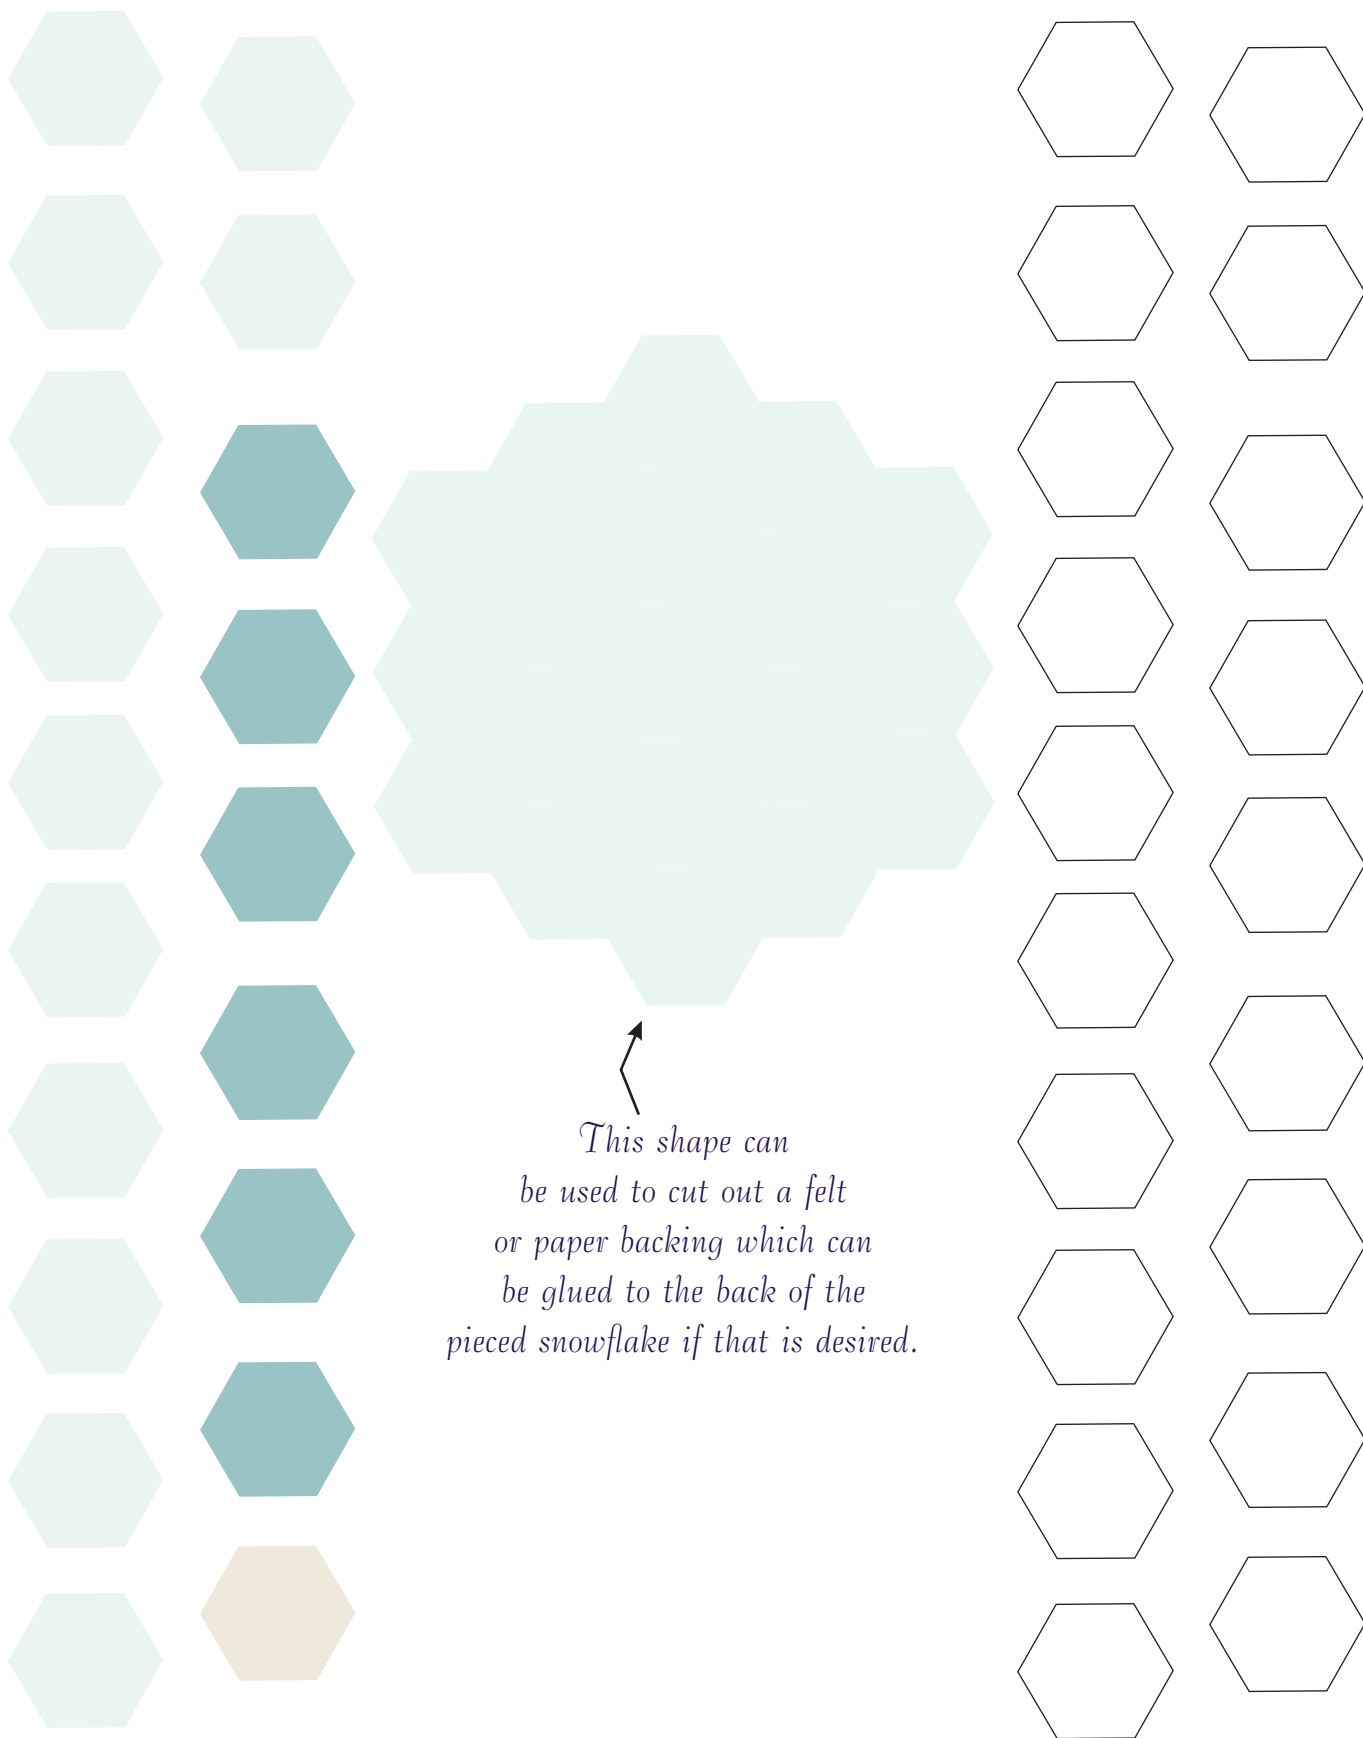

D

Consider making it scrappy and choose a selection of light and dark fabrics for the outer rings of hexagons.

All template pieces on the following page are drawn without seam allowances.

I have provided templates in color and in outline. You can use whichever you choose.

*This shape can
be used to cut out a felt
or paper backing which can
be glued to the back of the
pieced snowflake if that is desired.*
