Prudence Penny's Compass

Finished Block 10" Square

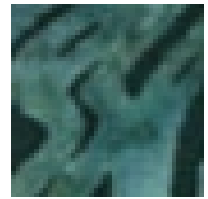

Published in 1932, this block was only named Compass. I decided to give it a name in honor of the magazine column which published it.

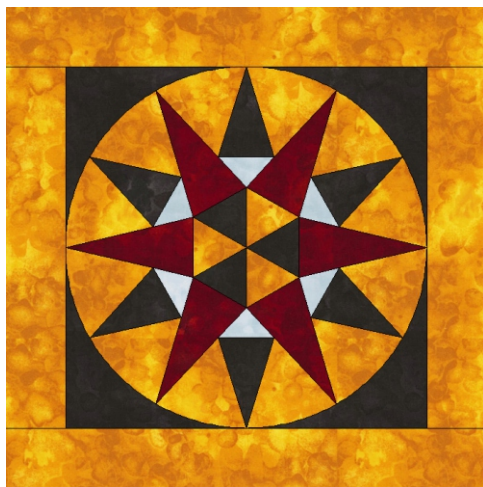

If you are doing a two color version, you will need more than 1/8 yard of fabric A, but only 1/8 yard of fabric for B.

Three and four color options are fun to try too.

All template pieces on the following pages are drawn without seam allowances.

I have provided templates in color and in outline. You can use whichever you choose.
